

# Get Sourcing with SellerAmp SAS

Welcome to the SellerAmp SAS family. Get your account activated, install the tools and get to analyzing.

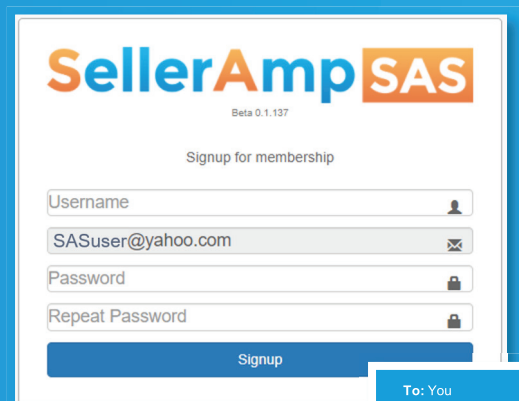

## Email Confirmation

- After signup, lookout for your email confirmation
- No email? Check your spam folder.
- Follow the links in the email for:
  - Account activation
  - Accessing & loading the SAS tools

## Account Activation

Create your account via the link in the email we send after signup. Complete your details and your account will be activated.

**NOTE:** Tools are not able to be used before account activation is completed.

The screenshot shows a web form for 'SellerAmp SAS' with the version 'Beta 0.1.137'. The form is titled 'Signup for membership' and contains the following fields: 'Username' (with a person icon), 'Email' (containing 'SASuser@yahoo.com' with an envelope icon), 'Password' (with a lock icon), and 'Repeat Password' (with a lock icon). A blue 'Signup' button is at the bottom. The form is set against a light blue background with a faint '@' symbol and a geometric shape.

From: SellerAmp - SAS  
Subject: Welcome & Activation Instructions

Once Activated, Install all 3 tools. See page 2 for details.

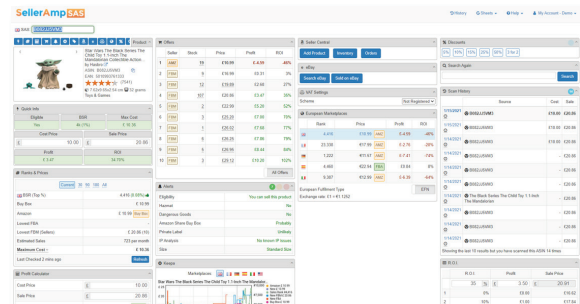

# Get Sourcing with SellerAmp SAS

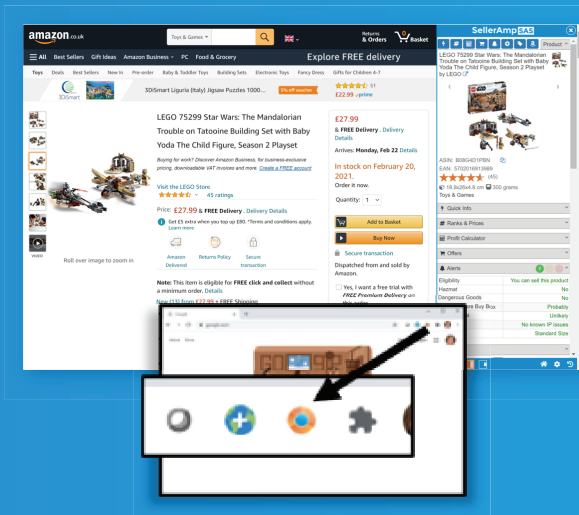

Account activation directs you to the web app, also available at [sas.selleramp.com](https://sas.selleramp.com).

Web app gives you a full screen view of SAS analysis.

**NOTE:** for full functionality in the web app, install the SAS Chrome extension.

## Chrome Extension

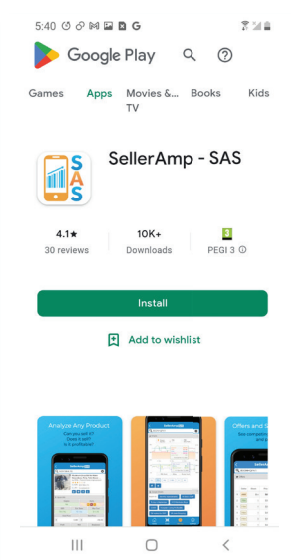

The Google Chrome extension allows you to run SAS on any website. Install it at [selleramp.com/extension](https://selleramp.com/extension). The Chrome extension, as the name indicates, does not work on other browsers.

With the extension, SAS product analysis opens...

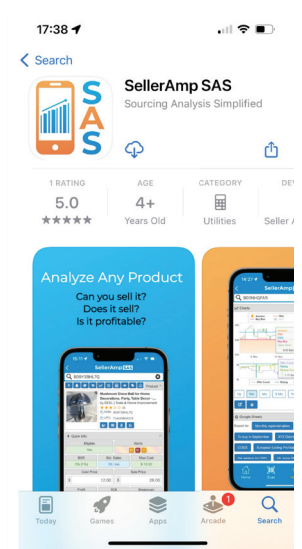

- Automatically on Amazon product pages
- After right clicking selected text on other websites
- By clicking the SAS icon in the Chrome toolbar.

**TIP:** We recommend pinning the SAS extension to your browser frame for quickest access.

## Mobile App

Download the mobile app.  
Android: [selleramp.com/android](https://selleramp.com/android)  
iOS: [selleramp.com/ios](https://selleramp.com/ios)

**QUICK TIP:** Don't forget, your product analysis history and SAS settings are available across all tools!
